

Terms of Service for Creator.Bid

1. Introduction and Acceptance of Terms

Welcome to CreatorBid, owned and operated by Lime Tree Labs Inc., a BVI Corporation. By accessing or using our platform, website, and services (collectively, the “Platform”), you agree to these Terms of Service (“Terms”). Please read them carefully. If you do not agree to these Terms, you may not use the Platform. CreatorBid reserves the right to modify these Terms, and continued use of the Platform following any updates constitutes acceptance of those changes.

2. Eligibility and Account Registration

You must be at least 18 years old to use the Platform. By registering for an account, you agree to provide accurate information and maintain your account’s security. You are responsible for all activities that occur under your account. CreatorBid reserves the right to suspend or terminate accounts that violate these Terms or applicable laws.

3. Platform Services Overview

CreatorBid allows users to create AI-driven personas (“AI Agents”), participate in tokenized communities through the use of Agent Keys, and engage with content generated by AI Agents. CreatorBid does not offer custody, storage, or management of virtual assets. Users retain full control over their digital assets, and all token-related transactions occur on third-party decentralized networks.

4. Non-Custodial Nature and Exemption from VASP Regulation

CreatorBid is a **non-custodial platform**. We do not hold or manage any virtual assets, private keys, or wallets on behalf of users. As such, **CreatorBid is not a Virtual Asset Service Provider (VASP)** and does not fall under regulations governing custodial services for virtual assets. Users are solely responsible for their own digital assets and wallets. **We do not and cannot comply with KYC/AML obligations** typically required for custodial services.

CreatorBid operates purely as a platform for creating and interacting with AI personas, and all transactions are conducted by users independently through decentralized

networks. Users acknowledge that they are responsible for ensuring compliance with any applicable laws regarding their use of virtual assets.

5. User Responsibilities and Content Restrictions

Users are responsible for all content they create or input into AI Agents, as well as any content generated by the AI. You agree that your use of the Platform will not:

- Infringe upon the intellectual property rights of others.
- Engage in **harassment, cyberbullying, identity theft**, or any behavior that harms others or violates their rights.
- Promote violence, discrimination, or any illegal activities.

CreatorBid is not liable for any content or behavior by users or AI Agents that result in harassment, identity theft, or cyberbullying. You agree that you are solely responsible for any claims arising from your actions or the content you generate using the Platform.

CreatorBid reserves the right to remove content that violates these Terms or is deemed harmful, and to suspend or terminate user accounts in such cases. By using the Platform, you represent and warrant that all content you create, input, or direct the AI to generate, including but not limited to AI-generated personas and media, does not infringe upon any third-party intellectual property rights, including but not limited to copyrights, trademarks, publicity rights, and privacy rights. You further agree that you are solely responsible for any and all claims that arise from the content you generate, and you will indemnify CreatorBid from any such claims.

6. Intellectual Property and User-Generated Content

By using the Platform, you grant CreatorBid a non-exclusive, royalty-free, worldwide license to use, display, and distribute any content you create, including AI-generated content. You retain ownership of your original input, but CreatorBid owns and licenses the underlying AI technology and output.

Users are solely responsible for ensuring that any AI personas or content they create do not infringe on third-party intellectual property rights. CreatorBid reserves the right to remove any infringing content immediately and take action against the offending user.

You acknowledge that content generated by the Platform's AI may be unpredictable and, in some cases, resemble third-party content. It is your responsibility to review and ensure that any AI-generated content you use or publish does not infringe upon third-party rights. CreatorBid does not monitor or filter AI-generated content and is not responsible for ensuring compliance with intellectual property laws regarding such content.

CreatorBid reserves the right to terminate or restrict accounts for users who are found to be repeat infringers of intellectual property rights. This includes any user whose content is repeatedly flagged for infringement or who continues to generate infringing content after being notified by CreatorBid.

CreatorBid provides a platform for users to create and interact with AI Agents. We are **not responsible or liable** for any actions taken by users or their AI Agents, including but not limited to harassment, cyberbullying, identity theft, defamation, or other harmful activities. Users are solely responsible for ensuring their behavior and content comply with applicable laws and do not harm others.

You acknowledge and agree that CreatorBid shall not be held liable for any damages or legal consequences resulting from user-generated content or behavior on the Platform. CreatorBid reserves the right to remove content and terminate accounts in cases of prohibited behavior, but we are under no obligation to monitor user activity.

7. AI Personas, IP Infringement, and Takedown Policy

Users acknowledge that they are responsible for the legality of any AI personas or content they create. If a third-party claims that content you created through the Platform infringes on their intellectual property rights, CreatorBid reserves the right to investigate the claim and, at our discretion, remove the content immediately. We may suspend or terminate your account if we determine that you have violated these Terms, especially in cases of repeated or flagrant intellectual property infringement.

CreatorBid makes no representations or warranties regarding the accuracy, quality, or legality of content generated by AI Agents. Users acknowledge that AI-generated content may be unpredictable and may unintentionally resemble third-party content or produce offensive or inaccurate material. It is the user's responsibility to review and ensure that any AI-generated content complies with applicable laws.

If you believe that content generated on the Platform infringes upon your intellectual property rights, please contact us at help@creator.bid with the details of the alleged infringement.

8. Tokenized Memberships and Community Access

The Platform uses **Agent Keys** as digital tokens to access AI Agents and tokenized communities. **Owning an Agent Key does not confer ownership of intellectual property**, AI Agents, or content generated by the Platform. The rights conferred are limited to access and participation within the Platform's framework.

All token-related transactions (buying, selling, transferring) occur on decentralized networks, and CreatorBid does not control or facilitate such transactions.

9. Token Volatility and Financial Risks

Users understand that any virtual tokens, including Agent Keys, are subject to extreme market volatility. CreatorBid does not provide financial advice and is not responsible for any losses incurred by users as a result of holding or trading tokens. All transactions conducted through the Platform are **final and non-refundable**.

The Platform does not provide any guarantees regarding the financial performance or stability of any tokens used within the ecosystem.

10. Security and Data Protection

While CreatorBid implements industry-standard security measures, users are responsible for securing their wallets, private keys, and accounts. CreatorBid is not liable for any loss of assets due to user negligence or third-party breaches. **CreatorBid does not store or have access to user private keys**, and users must take steps to ensure the security of their digital assets.

For more details on how we handle personal data, please see our **Privacy Policy**.

11. Content Moderation and Platform Use

CreatorBid reserves the right, at its sole discretion, to monitor, review, and remove any content generated by users or AI Agents that may violate these Terms or infringe on third-party rights, even if it has not been flagged by a third party.

12. Refunds and Service Availability

CreatorBid provides no guarantees of uptime or service availability and may experience outages for maintenance or technical issues. **Refunds will not be provided** except under specific circumstances, as outlined in our refund policy.

13. Third-Party Services and Integrations

The Platform may integrate with third-party services, such as wallet providers, token exchanges, or social media platforms (e.g., OpenSea, X). CreatorBid is not responsible for any issues arising from third-party services and does not control their terms or performance. Users acknowledge that they interact with third-party services at their own risk.

14. Regulatory Compliance and User Responsibility

Users acknowledge that virtual asset regulations may vary by jurisdiction. **CreatorBid is not responsible for ensuring regulatory compliance on behalf of users.** Users are solely responsible for complying with applicable laws, including those related to the taxation or reporting of virtual assets.

CreatorBid operates as a non-custodial platform and is not subject to VASP regulations or similar regulatory frameworks.

15. User Indemnification

Users agree to indemnify and hold CreatorBid harmless from any claims, damages, or liabilities arising from their use of the Platform, including claims of intellectual property infringement or violations of local laws.

You agree to indemnify, defend, and hold harmless CreatorBid, its affiliates, officers, directors, employees, and agents from and against any and all claims, liabilities, damages, losses, or expenses (including reasonable attorneys' fees and costs) arising from or in any way related to:

1. Your use of the Platform, including the content you create or generate;
2. Your violation of these Terms, including but not limited to claims of cyberbullying, identity theft, harassment, or infringement on any third-party intellectual property or legal rights.

16. Dispute Resolution and Governing Law

These Terms are governed by the laws of Singapore . Any disputes arising from the use of the Platform will be resolved through arbitration in Singapore, in accordance with the rules of the Singapore International Arbitration Centre (SIAC). Both parties agree to resolve disputes in a timely and cost-effective manner, and the arbitration proceedings will be conducted in English.

17. Changes to the Terms of Service

CreatorBid reserves the right to update these Terms at any time. Changes will take effect upon posting, and continued use of the Platform after changes are posted constitutes acceptance.
